

### Description:

HIDRO 1 is a waterproofing liquid for mortars and concrete.

### Uses:

It is ideal waterproofing liquid for mortars and concrete. It acts as mortar and concrete additive used for waterproofing dams, swimming pools, facades, foundations and basement walls.

### Features & benefits:

IT PROVIDES EXCELLENT WATERPROOFING PROPERTIES. NO LOSS IN MECHANICAL RESISTANCE. MECHANICAL RESISTANCE REMAINS UNALTERED.

### Surface preparation:

Not applicable.

### Application:

- HIDRO 1 is directly added to concrete or mortar in the proportion of 1 litre per bag of cement (50 kg).

### Technical Features:

Aspect: White liquid.  
Density: 1.0 - 1.1 g/cc.  
PH: 9 - 11

### Coverage:

1.0 l for every bag of cement (35 to 50 kg).

### Clean up:

Tools must be cleaned with large amounts of water.

### Storage:

It is recommended to store this product for 1 year in its tightly closed original packages in a cool dry place, at temperatures above 0°C.

### Packaging:

Available in packs of:

: 1 L  
5 L  
25 L  
60 L

### Health and safety advice :

The information provided on this technical data sheet and particularly the recommendations for the application and use of the product is based on our current knowledge and are provided in good faith, considering that the products are used, handled and stored under normal conditions and within the limits of its useful life. The possible differences between the materials, supports, and real conditions in the application site can be so important that it is no possible to establish a warranty with this document or any other information provided. The user must verify with a suitability test that the product conforms to the required use. Users should refer to the information included in the last technical data sheet edition.
