

### Description:

IMPRIMAIS MU is a solvent primer. It is used to ensure proper anchoring of plastic paints(LASTOIS and water based products in general) onto dry non-vitrified supports, new supports or old paints.

### Uses:

It is applied onto painted supports(interior and exterior) that are in good condition. Supports under bad conditions, with paint that may come off, must be repaired. Used on roof tiles, fibrocement or similar material. It can be applied to all types of surfaces in general, except those that are vitrified.

### Surface preparation:

All traces of old paint must be removed manually so as to provide a clean and dry background of application that is free of dust and loose particles.

### Application:

- Apply using a paint brush or roller.
- It can only be repainted using water based plastic paints.
- One coating is generally applied on the support. Leave to dry for 24 hours before repainting with plastic paint.

### Technical Features:

Density: 0.80 Kg/L  $\pm$  0.02  
Viscosity: 18  $\pm$  6 s  
-: It enables to anchor paints afterwards.  
Aspect: Matt.  
Colour/s: Transparent.

### Clean up:

Clean using our DISOLUVAIS B solvent.

### Features & benefits:

EASY APPLICATION.EXCELLENT ADHERENCE TO THE SUPPORT.

### Coverage:

5 to 7 m<sup>2</sup> per l.

### Storage:

It is recommended to store this product for 2 years in tightly closed original packages in a cool dry place.

The information provided on this technical data sheet and particularly the recommendations for the application and use of the product is based on our current knowledge and are provided in good faith, considering that the products are used, handled and stored under normal conditions and within the limits of its useful life. The possible differences between the materials, supports, and real conditions in the application site can be so important that it is no possible to establish a warranty with this document or any other information provided. The user must verify with a suitability test that the product conforms to the required use. Users should refer to the information included in the last technical data sheet edition.
